

110 Gallon Industrial Ultrasonic Cleaner with Automatic Skimmer

The Ronatec Single-Tank Integrated Ultrasonic Cleaning Machine delivers fast, effective, and consistent cleaning with a weak alkaline, water-based detergent. Operators simply load the workpiece into the tank, set the desired temperature and time, and the machine completes the process automatically. The ultrasonic cleaning action removes oil, grease, and impurities from both inner and outer surfaces, ensuring superior part cleanliness. Equipped with intelligent temperature control, digital display timing, and user-friendly operation, this machine combines precision performance with simple, reliable use.

Product Summary

- Powerful heavy-duty ultrasonic cleaner.
- Designed for cleaning a wide range of parts in a production environment.
- Thoroughly removes chips and coolant from newly machined metal parts. Removes oil grease dust, fingerprints and dirt from used parts.
- Effectively removes oil, grease and other contaminants from all surfaces that cannot be removed by visual cleaning in crevices.
- Applications include removal of oil contamination from the surface of automotive parts, removal of chips and coolant from machined parts, removal of soldering flux, cleaning of injection mould.
- Cleaner's tank is made of 2.0mm thickness SUS304 stainless steel, good corrosion resistance and heating resistance.
- The recirculation pump keeps the waste water flowing through the rear tank with a steel belt oil skimmer. The steel belt effectively separates the oil from the water and discharges it through the oil drain.
- For easy cleaning of different sized items, the machine is equipped with 2 different sized cleaning baskets.
- Simple operation. Digital temperature control and Digital timer-controlled ultrasound.

110 Gallon Industrial Ultrasonic Cleaner with Automatic Skimmer

Specs

- Model UC110A
- Voltage 220V 60HZ 3PH
- Ultrasonic power 3.5KW / 4.7HP
- Heating power 10KW / 13.4HP
- Adjust heating Ambiance149°F
- Machine size 66.2"×49.2"×36.2"
- Tank size 48"×23.6"×23.6"
- Big basket size 46"×22"×19.3"
- Small basket size 14.4"×8.1"×8.6"
- Oil skimmer productivity 10L/Hour
- Max load weight 355LBS
- Tank volume 113.6GAL
- Transducer Qty. 60
- Frequency 28kHz
- Tank material 14 gauge(2.0mm) 304 SS
- Housing material 19 gauge(1.0mm) 201 SS
- Packing Size 68.9"×53.1"×44.1"
- N.W./ G.W . 772/959LBS
