

RONACHROME

CHROME PLATING ADDITIVES

Ronatec provides a variety of additives for chrome plating which will increase efficiency and appearance of your decorative and functional hard chrome plating baths. A selection of inorganic and organic catalysts are available.

HARD CHROME – FLUORIDE BASED

- **RONACHROME HC**
 - Dry chromic acid and fluoride blend for hard chrome plating
 - Available in 110 lb kegs
- **RONACHROME HC CATALYST**
 - Liquid fluoride catalyst concentrate.
 - A 1.0% addition of the RONACHROME HC Catalyst will raise the fluoride by 2000 ppm.
 - Available in 5 gallon pails and 55 gallon drums.

HARD CHROME – ORGANIC BASED

- **RONACHROME NFS**
 - Dry chromic acid and organic catalyst blend for hard chrome plating
 - Available in 100 lb kegs
- **RONACHROME NFS-C**
 - Powder catalyst concentrate. The catalyst is designed to be maintained at 3–4 g/L.
 - Available in 10 lb kegs
- **RONACHROME NFL**
 - Liquid chromic acid and organic catalyst blend for hard chrome plating
 - Available in 55 gallon drums and 300 gallon totes
- **RONACHROME NFL-C**
 - Liquid Catalyst concentrate.
 - The catalyst is designed to be maintained at 3–4% by volume.
 - Available in 5 gallon pails and 55 gallon drums.

DECORATIVE CHROME

- **RONACHROME DEC-L**
 - A liquid chrome concentrate which contains fluoride.
 - Chrome concentration 4.2 lb/gal
 - Available in 55 gallon drums and 300 gallon totes
- **RONACHROME DEC-D**
 - Dry chromic acid and fluoride blend
 - Available in 55 lb kegs
- **RONACHROME DEC CATALYST**
 - Liquid fluoride catalyst concentrate.
 - A 1.0% addition of the RONACHROME DEC Catalyst will raise the fluoride by 430 ppm.
 - Available in 5 gallon pails and 55 gallon drums.

GENERAL USE PRODUCTS

- **RONACHROME LC**
 - A liquid chrome concentrate designed to be used in chrome plating baths.
 - Chrome concentration 4.2 lb/gal.
 - Available in 55 gallon drums and 300 gallon totes.
- **RONACHROME MIST ELIMINATOR III**
 - Liquid additive used to reduce the surface tension of a decorative chrome plating solution below 40 dynes.
 - Must be diluted prior to use.
 - Available in 5 gallon pails.
- **RONACHROME MIST ELIMINATOR PF FREE**
 - Liquid additive used to reduce the surface tension of a hard chrome plating solution below 40 dynes.
 - Also used in chromic acid etch.
 - Available in 5 gallon pails.
